- Sunaulotol 15, Kageshwori Manohara 7, Kathmandu, Nepal

## About Me

Frontend App & Web Developer experienced in Flutter and modern web technologies, with a strong foundation in Cloud Engineering. Focused on building scalable, responsive applications with efficient frontend-backend integration, cloud-aware architectures, and clean, user-centric UI/UX.

## Skills

- Frontend: React, Next.js, Flutter, React Native, HTML5, CSS3, Tailwind CSS
- Backend: Firebase (Auth, Firestore), RESTful APIs, Node.js, Django, PHP
- Cloud & DevOps: Cloud Engineering, AWS (EC2, S3 – fundamentals), CI/CD Pipelines, GitHub
- AI & Data: Artificial Intelligence (AI), Machine Learning, Data Science, Python
- Emerging Tech: Quantum Computing (Qiskit)
- CMS & Platforms: Payload CMS, Headless CMS Architecture
- Tools: Git, GitHub Actions, VS Code, Figma, Postman
- Soft Skills: Leadership, Teamwork, Mentorship, Communication, Adaptability & Continuous Learning

## Education

- BSc IT Cloud Engineering**  
*Lord Buddha Education Foundation / Asia Pacific University* (2023 – PRESENT)  
Gaining in-depth knowledge and practical expertise in cloud technologies, programming, and system management. Engaged in hands-on projects, collaborative team assignments, and real-world simulations to develop problem-solving, technical, and project management skills, preparing for a professional career in IT.
- Higher Secondary Education**  
*Premier College* 2021 – 2023  
Focused on advanced coursework in science and technology, while enhancing critical thinking, analytical abilities, and research skills. Participated in academic projects, competitions, and collaborative learning experiences.

## Experience

- Software Developer**  
*Bechchhatech .Pvt .Ltd* Nov(2024) – Present
  - Developed cross-platform mobile apps using Flutter & Dart, integrating Firebase and REST APIs
  - Built responsive web apps using React, Tailwind CSS, Framer Motion
  - Worked in Agile sprints with CI/CD pipelines
  - Optimized app performance and reduced runtime issues
- Technical Head**  
*HACK X LBEF* 2024(OCT-DEC)
  - Led technical planning and execution for hackathon
  - Guided teams on development, debugging, and deployment
- Vice President**  
*LEO CLUB OF SAMARPAN LBEF* July (2025)- PRESENT
  - Led youth-focused community and leadership initiatives
  - Coordinated events, volunteering activities, and outreach programs
- President**  
*LBEF AI & ROBOTICS CLUB* August (2025) – PRESENT
  - Lead the club; managed projects, events, and members
  - Organized workshops, hackathons, and live demos
  - Mentored students in AI, robotics, teamwork, and presentations
